Re: Television Station Section 339(a)(2)(D)(viii) Waiver Request

KFTR-TV, Ontario, CA (FIN: 60549)

MB DOCKET NO. 05-317

Dear Ms. Dortch:

On behalf of Telefutura Los Angeles LLC, the permittee of Station KFTR-DT, Ontario, California ("KFTR"), and pursuant to Section 339 (a)(2)(D) of the Communications Act of 1934 (the "Act"), as amended by the Satellite Home Viewer Extension and Reauthorization Act of 2004 ("SHVERA"), the purpose of this correspondence is to request a six-month waiver of digital testing to prohibit satellite subscribers from obtaining digital signal strength tests of KFTR-DT's signal. Good cause exists for the instant waiver request because it meets the waiver criteria under Section 339(a)(2)(D)(viii)(I) (need for international coordination).

In its Form 381 filing, KFTR-DT certified that it would construct the maximization facilities in FCC File No. BMPCDT-20021020ABV that have not yet been authorized due to the need to secure international coordination. That application remains pending. In the interim, KFTR-DT has commenced digital operations pursuant to Special Temporary Authority ("STA"). See FCC File No. BDSTA-20050421ABY. Pursuant to the STA, KFTR-DT's effective radiated power is reduced from 400 kW to 150 kW at a lower center of radiation. As shown in the STA request, the station's current DTV signal contour is less than its allotment.

Accordingly, the delay resulting from awaiting Mexican concurrence for KFTR-DT's proposed full-power digital service warrants a six-month waiver of digital testing to

prohibit satellite subscribers from conducting or seeking a digital signal strength test and receiving a distant digital signal from the same network under Section 339 of the Act. As a result, Telefutura Los Angeles LLC respectfully requests that the Commission grant the requested waiver.

Should there be any questions regarding this matter, please contact the

undersigned.

Very truly yours
